EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raul Tamayo 7/25/05.

In the claims:

In claim 4 line 10, change " a waterproof rib " to - - said waterproof rib - - .

Response to Arguments

2. The previous rejection under the drawing objection, specification, 112 first paragraph and the 112 second paragraph have been withdrawn because the applicant's arguments are persuasive.

3. Attorney's argument on page 11 that Sato et al clearly does not teach or suggest the claimed invention in which a grommet includes the claimed waterproof rib for claim 4 and claim 1 has been amended to clarify that the joining portion "attaches" the elastic seal member to the at least one resin molded division member so as to prevent separation are convincing.

Allowable Subject Matter

4. Claims 1-5 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The primary reasons for the indication of the allowability of claims 1-5 are the inclusion therein, in combination as currently claimed, of the limitation of a grommet comprising: the grommet includes a joining portion which attaches the elastic seal member to the at least one resin molded division member so as to prevent separation therefrom (for claims 1-3), and a grommet comprising: a lid member which has a pressing projection, wherein when the lid member is fitted on the box body, the pressing projection presses the waterproof rib with respect to the peripheral wall (for claims 4-5).

The previously listed limitation is neither disclosed nor taught by the prior art of record, alone or in combination.

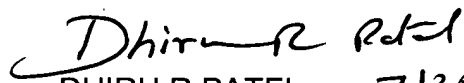

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
